Professional Summary

Enthusiastic Software Engineer with expertise in Artificial Intelligence and Data Science. Skilled in building machine learning models, data analytics, and optimizing algorithms. Proficient in Python, SQL, and tools like TensorFlow and PyTorch. Experienced in delivering data-driven solutions to solve real-world problems. Passionate about leveraging AI to drive innovation and business growth.

WORK EXPERIENCE

Beez Labs•Chennai•07/2024 - 11/2024

software trainee•Internship

MRL Tech Solution•Chennai•01/2024 02/2024

•Internship

PROJECTS

Shoe Recommendation System Using RAG Architecture

- BeezLabs
- Tech stack used : Faiss, Pytorch, LLM, Generative AI.

DataAssist: A Visual Query and Analysis Tool for Non-Technical Users

- Tech stack used : NLP, Generative AI,,DBMS, SQLDjango,APIs.

web scraping

- Tech stack used :beautiful soup, Scrapy, selenium, pandas.

Churn Prediction- Data Science

- Tech stack used : Pandas, Scikit Learn,Machine learning, Matplotlib.

SKILLS

Technical skills: Artificial intelligence, Data science, Django stack, NLP, ML, RESTapi, Pandas, Pytorch, Gen AI

Programming language: Python, C++, JavaScript, SQL

Tools: Git, GitHub, VScode, Jupyter Notebook, AWS, Docker, PostgreSQL

CERTIFICATIONS

Artificial Intelligence - Nvidia

Python - Kaggle

Data analytics - IBM

SQL - Kaggle

EDUCATION

B.Tech in Artificial intelligence and Data Science

Prince Dr K Vasudevan college of engineering and technology

GPA: 8.3
